Applied Computer Science (aka, "AP Comp Sci A")
Mr. Neat
Class Rules
Updated Sem2 2021-2022

Dear Students, Parents/Guardians,

This note is an addendum to the original syllabi distributed at the start of this academic year. In contrast to the first semester, where the primary basis for the semester grade was oral evaluations, this semester grade will be determined by the grade earned by the student on the Collegeboard AP test. A "5" earned on the AP test maps to an "A", a "4" maps to a "B", etc.

Third quarter grades will be determined by both oral evaluations (similar to first semester) and written work (homework, quizzes, labs). One form of written work will be randomly selected each week for that portion of the grade. As with the first semester, the primary determinant is the oral evaluation. My preference is for these evaluations to occur in the evenings or on Saturdays but can accommodate other times. Most of the time they are on Zoom but could be in person.

Thank you for your interest in this class and reading this addendum note. The best way to reach me is by email (gneat@gusd.net). Please DO NOT leave a message on my school phone extension.
